

HARTMAN & COMPANY, INC.
HEAVY CIVIL CONSTRUCTION SPECIALISTS

Project Profile

Bridge - Business Loop 49 (Rangeline Road), Joplin, Missouri.

Project Value: \$6,000,000 to \$8,000,000
Demo an existing bridge and replace it over the RR tracks on Business Loop 49 (Rangeline Road) in Joplin, Missouri

Project Impact Factors

- Demo the existing bridge and replace it over the Kansas City Southern RR in a 90-day period since we could not shut down Rangeline Road for longer than that as it is a major road in Joplin.**
- Excavate tremendous amounts of dirt, build MSE Walls on both sides. Then back fill walls and build a New Bridge.**
- Our Team completed this Project in just 77 days which was remarkable for a Project of this size and complexity.**
- As is the Hartman & Company way, we completely exceeded Client expectations in both time and quality for the traveling public on Rangeline Road.**
